

The Analytical Report of the School Board Questionnaire

Prepared by:

Gymnázium, Obchodní akademie a Jazyková škola s právem státní jazykové zkoušky Hodonín, Legionářů 1, 695 11 Hodonín, Czech Republic

This project has been funded with support from the European Commission.

This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

We, students from the Czech Republic, have had a task to ask students from the participating countries to answer questions about sports and ecological life. We believe that sport is very important for everyone because a good physical and mental condition gives us chance to be able to help our environment and have a good view on ecological things as well.

PLACE

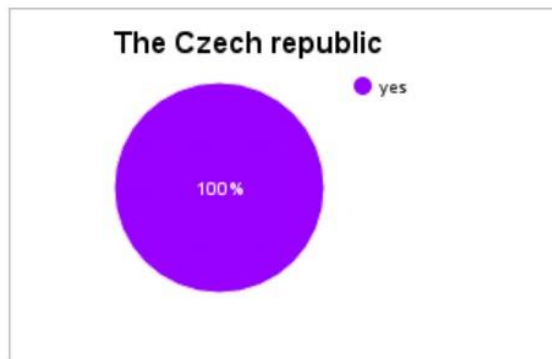

We asked students our questions in Austria, Slovakia, Portugal, Turkey and in the Czech Republic. Except the questionnaire, we were playing sports games as well and when there was a break, we asked students our questions.

As you can see from graphs, sometimes there does not fit the same number of students because for someone more than just one option was true.

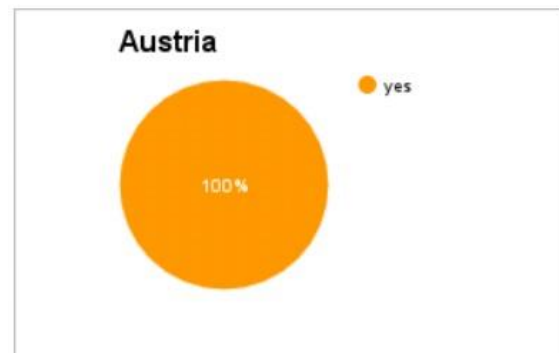

For question number 12, there isn't a graph of Portugal because in the previous question, the answer of Portuguese students was that they don't have a sports course.

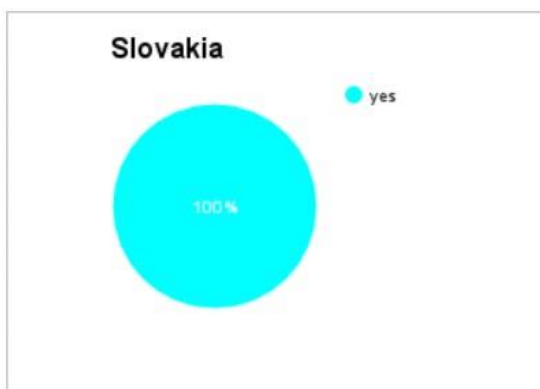

1. Do you do any sports in your free time?

no	6

Everyone is different, everyone lives differently and everyone has got a different opinion.

But everybody knows that ecological life and to be healthy is very important. As we can see at question number 19, every school recycles rubbish. That's great!

students from the Czech Republic
